

Restoration works.

Stormwater management projects like stream restoration, bank stabilization, and dam removal benefit water quality, improve natural habitat, and address regional flooding issues.

Join us for a second series of public meetings on the Doan Brook Restoration near Horseshoe Lake Park.

Learn more about the Northeast Ohio Regional Sewer District's upcoming work near Horseshoe Lake Park. We'll share recent survey results and the design team's findings so far, and provide an opportunity for you to discuss your ideas with the design team.

Wednesday, November 30, 6-7:30p

Virtual Information Session

*Learn about the project and hear from the design team about their findings so far.
Register at neorsd.org/doanbrook*

**Saturday, December 3, 10:30a-3p
and Sunday, December 4, 1-3p**

Public Engagement at Shaker Heights Library

Learn about the project and join the design team for a hands-on, interactive community engagement activity.
