## Greater Cleveland Partnership honors Sewer District for diversity

The [Greater Cleveland Partnership](#) recently honored the [Sewer District](#) as member of its **Commission 50** inaugural class, recognizing it as one of Northeast Ohio's top organizations for Board, Senior Management, Workforce and Supplier Diversity.

"We are taking steps to ensure a workplace that is diverse, inclusive and productive," said Director of Administration & External Affairs Constance Haqq. "Though we know it is a journey, we are happy to receive this recognition along the way."

The award was presented at the Partnership's May 4 annual meeting. Results were based on the 2010 [Employer Survey on Diversity](#) which accounted for metrics in four categories; the scores were combined for the final ranking.

The Greater Cleveland Partnership's Commission 50 consists of 25 for-profit and 25 nonprofit or government organizations that will hold the honor for the 2011-2012 year.
