Re: Regional Stormwater Management Program – Stormwater Construction Plan 2026-2028
Projects

Dear Potential District Vendors:

Thank you for your interest in assisting the District with the implementation of our 2026-2028 Stormwater Construction Plan. The format of the 3-year Program was designed to provide more information to our vendor community, including Small Business Enterprise (SBE) companies that participate in the District's Business Opportunity Program, to allow you to better plan your pursuits. This report is organized to highlight planned Regional Stormwater Management Program – Stormwater Construction Plan projects and provides key schedule milestones (Design Award and Construction Award). The District's Stormwater Construction Plan investment over the next three years is substantial and will require the work of many to achieve.

Be aware when bidding on one of the construction projects, you will be directed to register with OpenGov. Registering with the OpenGov platform and following our organization may alert you to when future construction bids are posted.

The link that follows includes a monthly updated table to reflect the status of these projects: [Capital Improvement Plan Documents – Northeast Ohio Regional Sewer District](#). A dashboard containing active and completed projects can be found on the District's Stormwater Project Map: <https://experience.arcgis.com/experience/f5bcfc0db20247998ab1e6dcdd105209/>

We encourage all potential vendors to visit our website (<http://www.neorsd.org>) to obtain critical information about how to become registered with the District's Business Opportunity Program and review the current SBE registry for potential teaming partners at: <http://www.neorsd.org/business-home/business-opportunity-program>

In addition, vendors may contact the following District staff for additional information on projects:

Matt Scharver, Director of Watershed Programs, ScharverM@neorsd.org

Robin L. Halperin, Deputy Director of Watershed Programs, HalperinR@neorsd.org

Dave Ritter, Manager of Watershed Technical Support, RitterD@neorsd.org

Kimberly Colich P.E., Stormwater Program Manager, ColichK@neorsd.org

The District looks forward to the opportunity to partner with many of you in the upcoming year, and the resulting successful implementation of our program. The continued investment in our Regional Stormwater Management Program is key to maintaining our environment and Lake Erie for future generations to enjoy.

January 1, 2026

Sincerely,

Matt Scharver

Director of Watershed Programs
