You may qualify for a reduced sewer bill.

The Sewer District offers several cost-saving programs for qualified customers. See if you qualify and find out which programs are right for you. To see if you qualify, contact Customer Service at (216) 881-8247 or visit [neorsd.org/save](https://www.neorsd.org/save)

New monthly Saturday open hours

To reduce barriers and enroll eligible customers in our cost-saving programs, the Sewer District's Customer Service department has open office hours the first Saturday of every month (8–11a at 3900 Euclid Avenue, and open phone lines 8a to 12 noon) for help with utility-assistance applications or account-related support. Parking is free and no appointments are necessary!

STORMWATER CONSTRUCTION IN YOUR NEIGHBORHOOD

May 2025

The Northeast Ohio Regional Sewer District will begin construction to address flooding in your neighborhood.

The **Flood Reduction at Riverview Road in Brecksville Project** will address flooding issues along two tributaries to the Cuyahoga River that intersect Riverview Road. It will include raising Riverview Road between Greenhaven Parkway and Wiese Road, replacement of two undersized crossings, removal of sediment vaults, and additional storm sewers. The streams and crossings are regional assets that provide stormwater conveyance.

Construction will have some short-term impacts, including increased truck traffic, noise, dust, dirt, and/or mud.

The District's contractor will inspect haul routes and perform street sweeping as necessary. We look forward to project completion and appreciate the resident input received at public meetings.

Start Date:
May 2025

Substantial completion:
October 2026

EXISTING CONDITIONS:

Riverview Road flooding

Sediment vaults surcharging

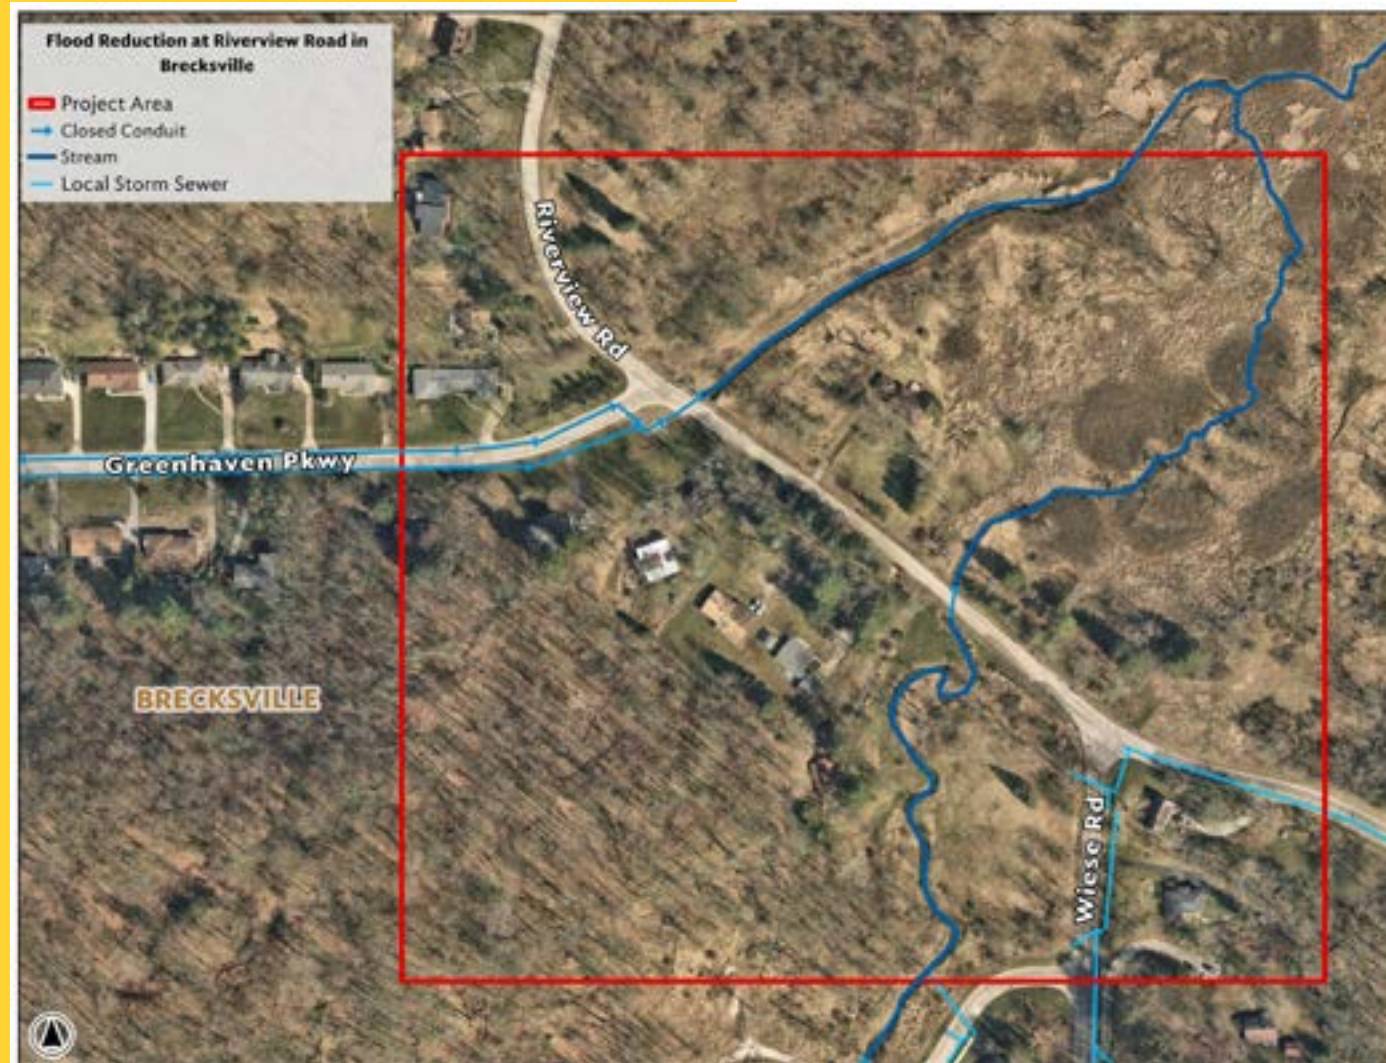

Undersized culvert

For more information, contact Anne Schilling, Watershed Team Leader at schillinga@neorsd.org or 216.881.6600 x6477

Construction in progress

The Riverview Road Flood Reduction Project in Brecksville will raise a section of Riverview Rd, replace and increase the size of two crossings, remove sediment vaults, and add storm sewers for drainage relief.

TRAFFIC IMPACTS

The road raising and crossing replacement activities will impact traffic for a duration of time. Access and staging areas will be within designated work limits. The project will include traffic detours, pictured on the right.

CONSTRUCTION DURATION

Work is scheduled to begin in May 2025 and is expected to be completed by October 2026.

<https://www.neorsd.org/riverview>

Phase 1 (4-8 months)

Riverview Road improvements will begin at the crossing closest to the intersection of Riverview and Wiese Roads. During this phase, Riverview Road between Greenhaven Parkway and Wiese Road will be closed to all through traffic.

--- DETOUR

Phase 2 (4-6 months)

Riverview Road improvements will primarily take place at the crossing closest to the intersection of Riverview Road and Greenhaven Parkway. During this phase, Riverview Road between Wiese Road and Greenhaven Parkway will remain closed to all through traffic.

--- DETOUR
