Re: Shaker Lakes Dams Rehabilitation Project
USACE Permit No.: 2016-01372 (Green Lake), 2016-01373 (Lower Shaker Lake),
and 2016-01374 (Upper Shaker Lake)
SHPO No. 2016-CUY-35815
Sixth Annual MOA Report (2023)

Dear Mr. Sendziak,

In accordance with the requirements of the Section 106 Memorandum of Agreement (MOA) for the Shaker Lakes Dams Rehabilitation project, the Northeast Ohio Regional Sewer District (District) respectfully submits this letter to serve as the sixth annual report detailing the status of mitigation activities.

The repairs to Lower Shaker Lake Dam were completed in 2019 in accordance with Permit 2016-01373. Repairs to Green Lake were completed in 2020 in accordance with Permit 2016-01372. The originally planned work under Permit 2016-01374 at Upper Shaker Lake was placed on hold in 2020, due to changed conditions. The current project that includes the removal of the dam and restoration of Doan Brook at the Upper Shaker Lake site is nearing the end of the pre-design phase and detailed design is expected to begin later this year. Mitigation activities will not commence until the design is finalized and a notice to proceed is issued to the contractor. The District is committed to engaging with consulting parties and regulatory agencies throughout the design process.

If you have any questions or require additional information concerning this report, please contact Sarah Rehner, Environmental Specialist III, at 216-881-6600 ext. 6405 or rehners@neorsd.org.

Sincerely,

Sarah B. Andersson
Manager of Environmental Compliance
