Re: USACE Permit No.: 2016-01372 (Green Lake) and 2016-01374 (Upper Shaker Lake)
SHPO No. 2016-CUY-35815
Ninth Annual MOA Report (2026)

Dear Mr. Sendziak,

In accordance with the requirements of the Section 106 Memorandum of Agreement (MOA) State Historic Preservation Office (SHPO) No. 2016-CUY-35815 effective January 8, 2018, the Northeast Ohio Regional Sewer District (District) respectfully submits this letter to serve as the ninth annual report detailing the status of mitigation activities.

Although permitted separately, mitigation requirements for the expected adverse effects to historic resources were combined under this MOA for projects at Green Lake and Upper Shaker Lake. The project at Green Lake was completed in 2020 under USACE Permit No. 2016-01372. The *planned* work at Upper Shaker (Horseshoe) Lake, permitted under USACE Permit No. 2016-01374 effective January 22, 2018, was not and will not be performed.

The originally planned work at Upper Shaker (Horseshoe) Lake, specified in this MOA and permitted in 2018 under Permit No. 2016-01374, has been superseded with the Doan Brook Restoration at Horseshoe Park Project which is currently undergoing review for a Standard Section 404 Permit. A new MOA, specifically for the Doan Brook Restoration at Horseshoe Park Project, for the adverse effects to historic resources was executed on April 16, 2026.

The District is working to complete mitigation activities related to the completed project at Green Lake, which consists of installing educational signage at the project site.

If you have any questions or require additional information concerning this report, please contact me at 216-881-6600 ext. 6405 or rehners@neorsd.org.

Sincerely,

Sarah Rehner
